

4.3.1 Institution frequently updates its IT facilities including Wi-Fi

Computer lab is well-equipped with branded PC's adequately supported by 300 Mbps leased lines for internet connectivity. It is also equipped with a wide range of licensed system software and application software. The entire campus is connected with LAN. Computer labs are well connected to the internet to help students and faculty to carry out their academic and other work. Lab assistants are available to support students and faculty in their queries. The institute has total 504 computers.

LAN facility: 3-Layer Switching (Core, Distributed and Access) model is implemented. Core layer switches in the buildings are connected with the Optical Fiber Ring Network. This core switching is further extended to Distributed Switching for departments. Where 100/1000 Mbps (Gigabit Switches) are installed.

Wi-Fi facility: IT infrastructure department extend the complete support to the students. It is made available by setting and installing the Wi-Fi zones at various locations such as Reading halls, Hostels, Department corridors and at the Green lawn area. Staff and Students can access this facility on their Laptops by registering themselves. The institute has currently state-of-art RUCKUS Wi-Fi access points to provide the Wi-Fi internet access through Wi-Fi zones. The institute is planning to extend this further to create and establish a Wi-Fi enabled campus.
